

LICENSING OPPORTUNITY!

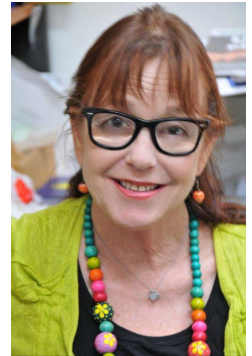

Give your children the *CREAM* of all learning approaches!

This unique approach to learning, developed by Victoria Carlton, is now being offered to the children of Singapore.

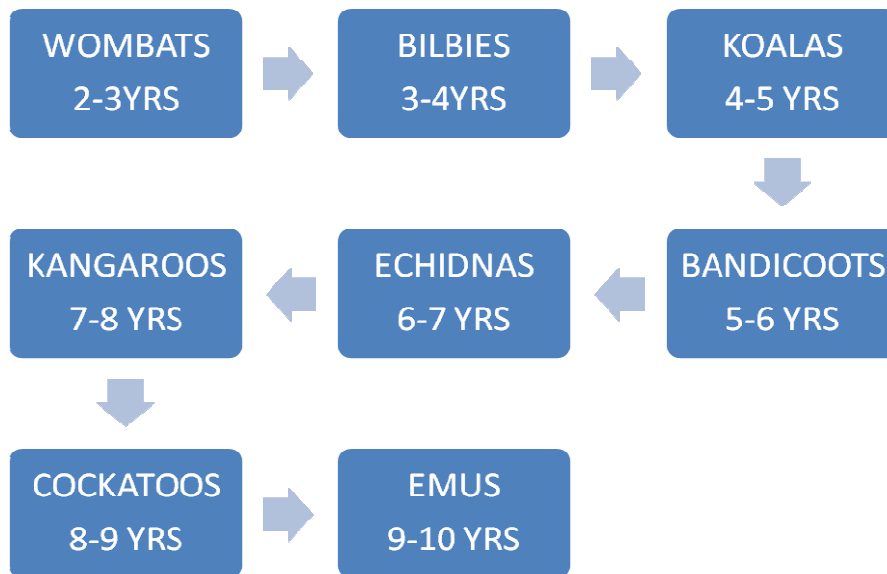

Victoria is the Director of the International Centre for Excellence in Perth, Australia. She trains teachers in Australia and Singapore and also offers a unique range of learning programs to children to help them reach academic excellence.

Victoria believes that **ALL** children are smart and so she designs high-quality programs that engage and enthuse children and make them **WANT** to learn!

Victoria is well known and respected by educators and parents and children in Singapore. For many years parents and teachers have begged her to bring these programs to Singapore and here they are!

VICTORIA CARLTON LEARNING PATHWAY TO VC LITERACY PROGRAMS

This unique boutique style Licensing opportunity to purchase the licence for Victoria Carlton's Literacy programs is now open for purchase by centres or private individuals.

- Option 1: Complete package of 7 levels.
- Option 2: Package of 3 levels.

Parent talk will be conducted regularly by VC herself. She will also be teaching some classes herself whenever she is in town to support an unique boutique style teaching and curriculum.

**Call Chew Yeh @ Tel: 62560226 or email her for Singapore & Asia's Licence.
Book an appointment to attend a free Victoria Carlton's talk.**

VICTORIA CARLTON LITERACY PROGRAM is based on over 20 years of research and practical application at Victoria's learning centre in Australia. This is a unique, creative, multi-sensory and enjoyable literacy program designed by Victoria Carlton to:

- Teach phonics, reading, grammar, writing and the "nuts and bolts" in interesting ways that help ensure children reach their highest academic potential and become life-long lovers of the English language.
- Help children develop appreciation of quality literature and develop deep comprehension skills in both the fiction and non-fiction areas.
- Improve oral language, speech and confidence to speak clearly and coherently.
- Improve children's imaginations through a unique approach using visualisations specially written by Victoria.
- Improve brain flexibility and development by engaging children in a unique set of exercises designed to stimulate specific learning areas of the brain.
- Stimulate creativity, foster thinking skills and nurture all 8 intelligences.

These multi-sensory programs are exciting and engaging for children. Assessments are given at the end of each unique 10- week learning cycle and children are offered specific assistance in any areas of weakness as well as extension and challenge for areas of strength. Children are issued with certificates of attendance at the end of each term.

Each term targets specific skills and intelligences and most parents love the approach so much their children stay in the programs for many years!

The Training Program provided is based on the *Victoria Carlton Mastery Practitioner Program*, which is basically the distilled wisdom drawn from Victoria's main aim in life: to help all children to reach their potential. She enjoys empowering parents and teachers to use her very successful methods to ensure all children love learning and experience success. Participants will be personally mentored and coached by Victoria herself during the training as well as during the practicum sessions with the children.

Each year level comes complete with:

- ✓ Detailed weekly lesson plans (40 lessons per level)
- ✓ Activity work sheets and many songs, rhymes, flash-cards and some reading materials. (including VC's own books)
- ✓ Communication feedback sheets for parents.
- ✓ Assessment materials

INVESTMENT:

- A set-up licence fee includes training and support.
- A Yearly licence fee to cover training updates and support.
- Student support fee is based on per enrolled student each term.

Victoria believes ALL children are gifted and her programs have been helping children in Australia for 20 years and now, in Singapore, to grow their talents and improve academic strengths, confidence and joy in learning.
