

Professional Development for Teachers

Victoria Carlton will be conducting this comprehensive course in which educators will learn:

- Types and causes of learning difficulties.
- Identification of difficulties: testing, observation, planned evaluations.
- About various form of common difficulties such as ADD, Dyslexia & learning delay.
- Steps to creating comprehensive learning plans.
- How you can meet these children's needs within a busy classroom.
- Setting up Mastery Learning Folders.
- Ways to work closely and cooperatively with parents.
- How to nurture and increase self-confidence and motivation within these children.
- Learning styles and multiple intelligences: how to profile these children so congruence of learning-teaching style can be assured.
- About teaching materials and games that support this approach and enhance learning enjoyment.
- How to keep an open mind and see the potential in every child while nurturing your own wellbeing as you engage in these transformative teaching strategies.
- How Mastery Learning Folders allow teachers to individualise remediation of the learning occurring in the classroom and give students instant and visual feedback on their progress.

Conducted by Victoria Carlton
